## Beijer Electronics Group's business entity Westermo wins a multi-million contract from Stadler

*The Swiss train builder Stadler has awarded Westermo business entity a contract worth about 30 MSEK to provide networking solutions for a new fleet of trains for Swiss Federal Railways, SBB. Westermo will supply data communication technology for a new generation single-decker trains called FLIRT Evo.*

"We are delighted that Stadler has extended its collaboration with Westermo with the award of this contract to provide networking technology for its new generation of FLIRT Evo trains," says Mark Gibbs, global market director for train networks at Westermo. "Westermo's rail-certified solutions and expert support will ensure the data networks provide the reliability and robustness required for critical onboard systems."

"This contract from Stadler is a testament to the growing partnership between the two companies and Westermo's ability to provide advanced networking solutions to meet the increasing demands of onboard rail applications", says Jenny Sjö Dahl, President and CEO of BEIJER GROUP.

Delivery of the Westermo products will commence in 2023 and continue multiple years ahead. The first new FLIRT Evo trains, which will be used for both local and long-distance operation, are expected to enter service in 2026.
